Client Testimonial

“You guys are about follow-up, reminders and details... the other vendor promises a lot and then I have to bug them for everything.”

– John, CIO Entertainment Industry

MSP Program Manager Testimonial

“I like working with Sysazzle because I am very impressed with their offshore/onshore delivery model. It's successful and not frustrating and initially I didn't know they had an operation in India. Sysazzle sends me solid candidates very quickly and are responsive to questions quickly. They don't sell us the moon then you hear crickets. They know their candidates and overall holistically they get the job done. It's super easy to get interviews scheduled and their follow up skills are excellent.”

– Program Manager, Major Global MSP
